

Organizing health information.

Making it universally accessible and useful.

About Us

- Our Mission:
Improve healthcare for everyone by organizing health information and making it universally accessible and useful.
- Our Vision:
Build the most comprehensive healthcare data ecosystem, enabling seamless collaboration between patients, providers, and payers.

Our Ecosystem

- Our ecosystem is **a fully digital & secure infrastructure** in healthcare, that seamlessly connects patient, providers, and payers.
- The platform includes:
 - **Fully-fledged platform** for payers, managing everything from policy building to chronic management and real-time processing of medical and financial records.
 - **Separate systems** for each provider designed to meet their unique needs.
 - **Mobile App** for beneficiaries, to access network & track medical records.

Lnkr Integrated System

- Checkout of all our solutions at:

<https://www.lnkrtech.com/products>

Value Proposition

- **Real-time Transactions**: instant synchronization of prescriptions, claims and reports.
- **Revenue Cycle Management (RCM)**: reduce rejections and optimize cash flow.
- **Seamless Integration**: connect with existing systems via APIs.
- Juliette AI Voice Assistant: real-time transcription & coding for doctors.
- Scalable Infrastructure.

Our Impact

- **Providers:**
cost reduction, faster claim settlements.
- **Payers:**
full-policy automation, fraud prevention.
- **Patients:**
instant access to medical & financial data, improved trust.

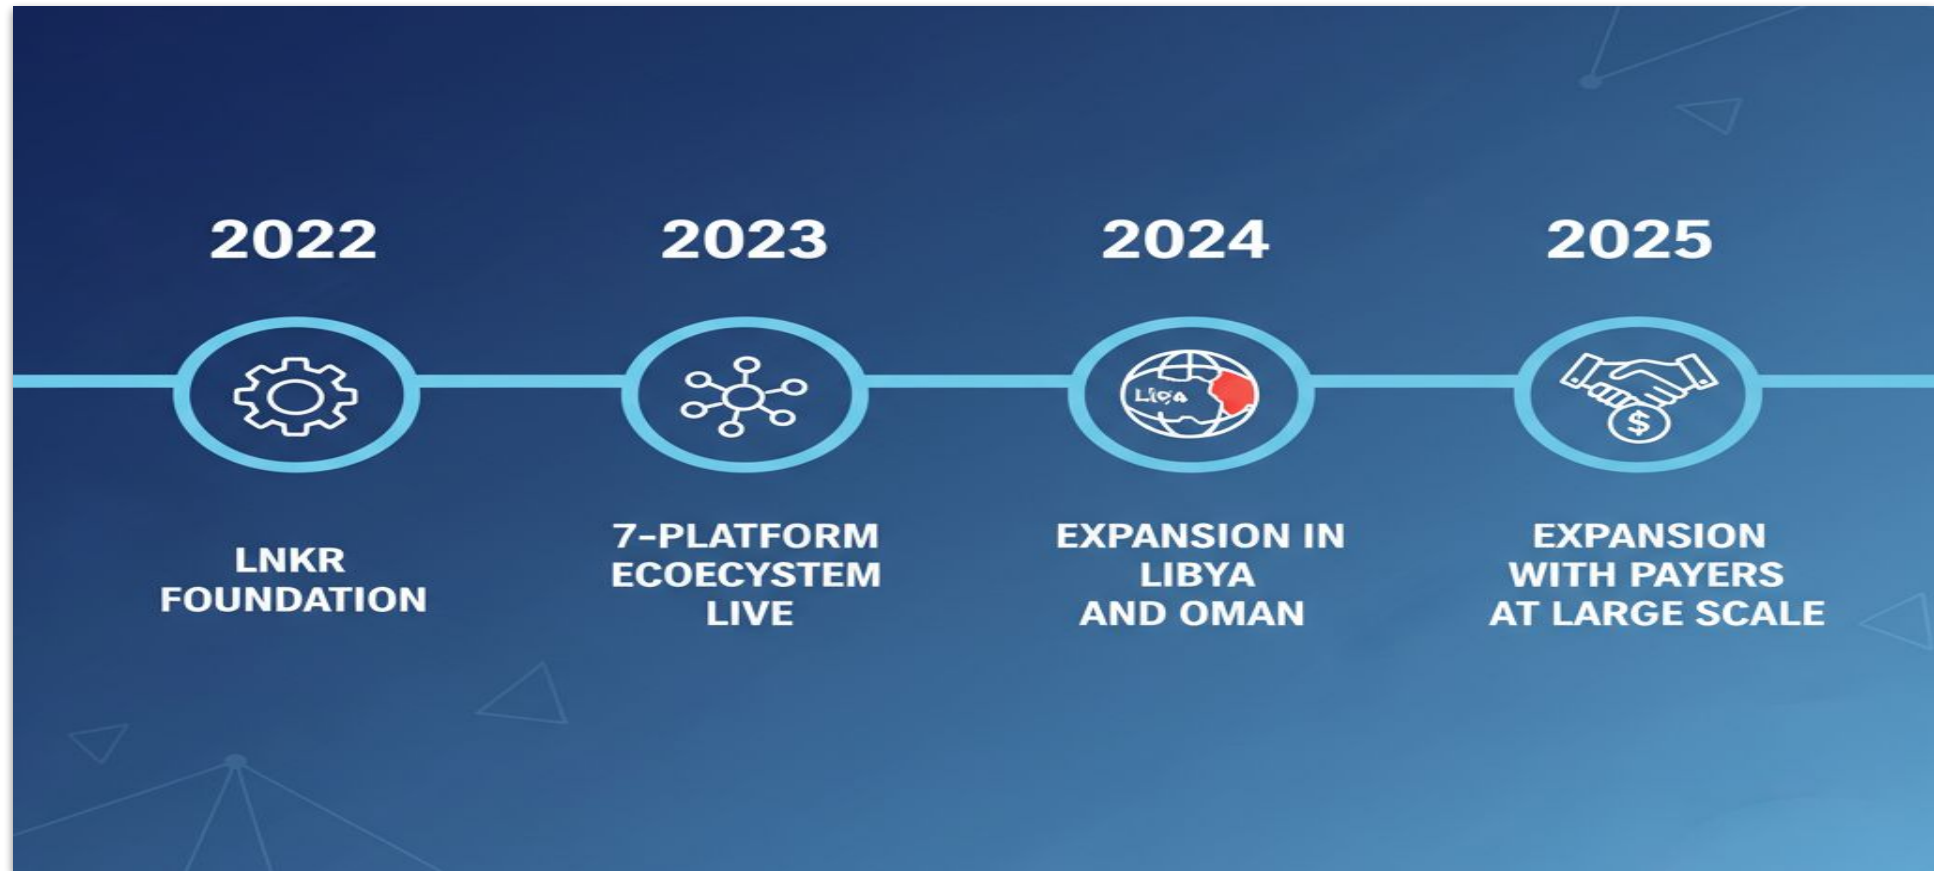

Business Model

- **Per-Transaction Fee** (~2%) – applied on each claim, prescription, or medical transaction processed through Lnkr.
- **Volume Discounts** – lower effective rates for high-volume providers (tiered pricing).
- **Monthly Cap** – maximum ceiling on fees to protect large hospitals and insurers from runaway costs.
- **Bundled Packages** – hospitals/labs/pharmacies can subscribe to blended SaaS + transaction model for predictability.

Current Traction

- As of Jan 25, we are serving:
 - *11 insurers*, in **Egypt, Libya & Oman**.
 - More than *65,000 patients*.
 - More than *1,500 healthcare providers*.
- We process around *50,000 transactions* on *monthly basis*.
